PROFESSIONAL EXPERIENCE

Veridian Technologies
Senior Strategy and Analytics Manager

Austin, TX
March 2023 – Present

- Lead a team of five analysts supporting go-to-market strategy and revenue operations for a \$420M SaaS product line, owning quarterly business reviews and executive-facing reporting
- Built and maintain a real-time performance dashboard in Tableau consolidating pipeline, churn, and expansion data across three regional sales teams, reducing reporting prep time by 60%
- Partnered with Finance and Product to design a pricing sensitivity model that informed a tiered pricing restructure, contributing to a 14% increase in average contract value within two quarters
- Scoped and managed cross-functional initiatives across Sales, Marketing, and Customer Success to improve net revenue retention, increasing NRR from 108% to 117% year-over-year
- Mentored two junior analysts on SQL, data modeling, and stakeholder communication; both received promotions within 18 months

Veridian Technologies
Strategy and Analytics Analyst

Austin, TX
August 2021 – March 2023

- Supported strategic planning cycles by building financial models and competitive landscape analyses used to prioritize \$18M in annual product investment
- Developed and maintained SQL pipelines to automate recurring reporting on customer health, usage, and cohort retention, replacing manual Excel processes across three teams
- Collaborated with Product and Engineering to define and track OKRs for two platform launches, synthesizing telemetry data and user research into monthly leadership briefs
- Conducted win/loss analysis on 300+ sales opportunities, identifying pricing and positioning gaps that informed a revised sales playbook adopted company-wide

Independent Consultant
Data and Strategy Consultant

Remote
January 2020 – August 2021

- Delivered analytics and market research engagements for three early-stage startups, providing actionable insights on customer segmentation, funnel performance, and unit economics
- Built financial models and investor-facing slide decks supporting two seed-round fundraises totaling \$4.2M

Brightside Capital Group
Business Analyst

Chicago, IL
July 2018 – December 2019

- Supported a team of six investment analysts in due diligence, financial modeling, and portfolio monitoring for a \$280M mid-market private equity fund
- Built LBO and DCF models for seven deal evaluations, preparing summary memos and recommendation decks presented to the investment committee
- Automated monthly portfolio reporting using Python and Excel VBA, cutting turnaround time from three days to four hours
- Coordinated data room setup and documentation for two completed acquisitions with combined enterprise value of \$95M

Ohio State University – Department of Statistics
Undergraduate Research Assistant

Columbus, OH
January 2017 – May 2018

- Assisted Professor Linda Hsu on a longitudinal study examining predictors of household financial resilience using PSID microdata across 12,000 survey respondents

- Cleaned, merged, and validated datasets in R; produced visualizations and summary tables incorporated into two conference presentations
- Co-authored a working paper submitted to the Journal of Applied Econometrics; contributed the data pipeline, robustness checks, and appendix tables

Nationwide Insurance

Columbus, OH

Data Analytics Intern

June 2017 – August 2017

- Analyzed claims frequency and severity trends across four product lines using SAS and Excel, presenting findings to a team of 12 actuaries and business analysts
- Designed an interactive Excel dashboard tracking regional loss ratios that was adopted by the Property Analytics team for ongoing monthly reporting
- Completed coursework in actuarial fundamentals and presented a capstone project on predictive modeling for auto insurance pricing to senior leadership

LEADERSHIP AND COMMUNITY INVOLVEMENT

Stanford Consulting and Analytics Club

Stanford, CA

President

September 2020 – June 2021

- Led a 140-member graduate organization connecting students with consulting and analytics opportunities through case workshops, speaker events, and recruiting preparation
- Organized a three-day case competition with 80 participants and five company sponsors, managing a \$22,000 event budget and logistics across four venues
- Restructured the club's mentorship program, pairing 45 first-year students with industry professionals and tracking placement outcomes through a purpose-built Airtable system
- Negotiated partnerships with six companies for on-campus recruiting events, expanding the club's employer network by 40% over the prior year
- Oversaw a four-person executive board and delegated responsibilities across programming, finance, and communications committees

Ohio State University Alumni Association

Remote

Career Mentor – Volunteer

August 2021 – Present

- Provide one-on-one career coaching to three to five current OSU students and recent graduates each semester, advising on resume strategy, networking, and offer negotiation
- Facilitated two virtual panels on breaking into finance and tech for a combined audience of 200 students through the College of Arts and Sciences career series
- Reviewed and gave structured written feedback on 30+ student resumes and cover letters submitted through the alumni mentoring portal
- Recognized as a top-rated mentor in the 2023 program cohort based on participant satisfaction surveys

Junior Achievement of Central Texas

Austin, TX

Volunteer Financial Literacy Instructor

September 2022 – May 2024

- Delivered a six-session financial literacy curriculum to 8th graders at three Title I middle schools, covering budgeting, saving, credit, and entrepreneurship using JA's hands-on program materials
- Adapted lesson content and pacing for mixed-ability classrooms in coordination with classroom teachers, maintaining average session engagement scores above 4.5 out of 5
- Coordinated logistics for a student business pitch competition, recruiting four local small business owners as judges and sourcing \$800 in prize funding from community sponsors
- Trained two new volunteer instructors on JA curriculum standards and classroom facilitation best practices
- Reached 340 students across two academic years; 91% of post-program survey respondents reported increased confidence in managing personal finances

Austin Triathlon Club

Austin, TX

Events and Logistics Coordinator

March 2022 – March 2023

- Coordinated logistics for eight club-sponsored training events and two local charity races with combined participation of 600 athletes, managing vendor relationships, course permits, and volunteer scheduling
- Built and maintained the club's event registration system in Eventbrite and managed communications to a mailing list of 850 members
- Negotiated discounted race entry and gear partnerships with four local sponsors, saving club members an estimated \$3,500
